BLANK GUNS

Model M92F (Beretta Replica) Pistol Blank Firing Gun Reproduction

The famous Model M92F (Beretta Replica) automatic pistol is the official sidearm of the U.S. Army and other U.S. government agencies. Our authentic, full sized, fully operative, blank firing reproduction weighs and feels like the original. Fires extra loud 8 mm blanks in both single and double action. Load the 16-round clip, pull back the slide, and fire as fast as you can pull the trigger! All the sound and fury of the originals! Disassemble and reassemble from our precision machined die cast parts. Complete with one magazine and a hard shell carrying case. Complement this fine gun with our belt holster.

Desert Eagle Blank Firing Gun Reproduction

This massive blank firing pistol is inspired by the .50 caliber Desert Eagle pistol imported by Magnum Research. The real Desert Eagle has been battle tested by Israeli tank commanders. The heft of this authentic looking firearm reproduction will impress everyone who sees it. Disassemble and reassemble precision machined die cast parts.

WATCHES

PERFORMANCE DRIVEN

World class timepieces in a class by themselves. Stainless steel cases that are water resistant to 200 meters. Precision Swiss movements with all Swiss made parts. Precision sealed backs with a screw lock design. Mineral grade crystals with a magnifying lens.

An assortment of dials in both metal and carbon Tritium markers on the watch face and hands. Unidirectional rotating bezels with a Tritium dot. Stainless steel bracelets or polymer straps. This is a new standard of performance. These are the watches from ASP.

For over a quarter century, ASP has been manufacturing premium grade products for the professional law enforcement community. This dedication to quality has made ASP designs the first choice of men and women who cannot afford second best.

ASP chronometric products embrace this dedication to rugged, reliable designs and premium, customer first service. These are precision, performance based timepieces. Every detail of every design is ASP. Each watch is a benchmark blend of function and design. Water resistant to 20 atmospheres. As accurate as they are handsome. As rugged as they are aesthetic.

Durable, yet detailed timepieces of distinction. Possessions of pride. ASP quality evident in every detail. ASP performance guaranteed in every watch.
